RE: Laboratory School Funding

At the meeting this summer with Dean Sally Pancrazio and representatives from the Illinois State University Laboratory School, you asked that we trace the University's provision of appropriated funds to the school. Records indicate that the University first made payments to the school in FY84. A financial schedule is attached. If you have any questions concerning the schedule or funding of the laboratory schools, please contact me or Dean Pancrazio. We would be happy to further discuss alternative support for the Laboratory Schools.
